### **Title: MMT Laboratory Technician**

### **Purpose: Perform Laboratory Testing Services for Innovative Instrument Company**

#### **Company Introduction:**

Massachusetts Materials Technologies (MMT) <http://www.bymmt.com/> is an emerging company that develops innovative nondestructive testing (NDT) equipment utilized in field inspections to ensure the safety and reliability of critical energy infrastructure. Our technologies reduce asset integrity risk and improve environmental sustainability through innovation. This position offers an opportunity to work with MMT's revolutionary technologies developed to meet a rapidly growing demand and need.

#### **Position Description:**

MMT is seeking a laboratory technician to perform strategic research and development through testing of prototypes and materials. The laboratory technician should have a strong mechanical aptitude, extensive experience with power and hand tools, and a minimum 3 years working in a testing laboratory, preferably testing materials. The laboratory technician will primarily work in the research and development department assisting with the design of new and innovative NDT technologies. The laboratory technician will be responsible for receiving and testing samples, assisting engineers with design of custom test fixtures and data acquisition systems, and recording, analyzing, and reporting results of their tests. New hires will complete our field testing training and certification program and be expected to travel for approximately 1 month per year, during our busy season, to assist with field testing. Monthly drug testing will be required.

#### **Responsibilities Include:**

- Receiving, labeling, and storing samples to be tested
- Assisting with designing custom test fixtures and data acquisition systems
- Cleaning, maintaining, and calibrating lab equipment and tools
- Ordering parts and services and maintaining relationships with vendors
- Conducting tests and analyzing and reporting data
- Completing MMT's field technician training

#### **Skills Required:**

- Strong mechanical aptitude
- Proficient with various power tools and familiar with hand tools
- Strong problem-solving skills and attention to detail
- Ability to implement critical thinking for troubleshooting
- Comfortable working in a fast-paced environment
- Ability to take direction and work independently

#### **Benefits of working within our group include:**

MMT offers a competitive compensation package including 401k, health insurance, paid vacations, travel per diem, and the opportunity to work with cutting edge technology in a collaborative work environment
